

HTML Workshop Goals!

IEEE Student Branch NTUA

IEEE Student Branch in NTUA is a union of undergraduate and postgraduate students. Its purpose is to contribute to the expansion of knowledge related with the field of Electrical and Computer engineering and the developing of technical skills. Taking part in various and interesting projects, students acquire useful and pioneering knowledge, obtain experience and develop their creativity.

Chapters

IEEE Student Branch in NTUA includes 5 chapters:

- [Computer Society](#)
- [Robotics and Automation Society](#)
- [Engineering in Medicine and Biology](#)
- [Power and Energy Society](#)
- [Communication Society](#)

Events

Workshop for training students about IEEE Extreme competition.
