

## JavaScript Workshop Goals!

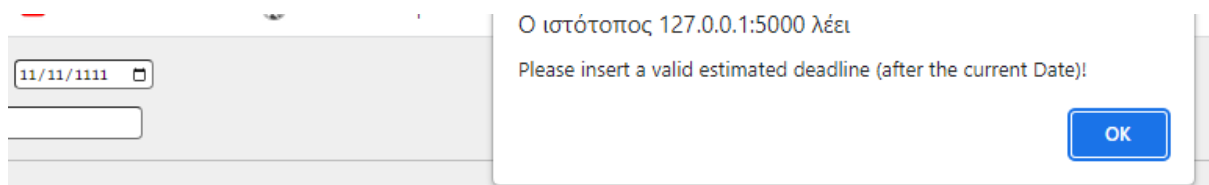

### TODO 1:

likes counter (number goes +1 when we press the button)

### TODO 2:

validation for the form submission (true-> submission, false->no submission)  
the estimated Deadline should be after the current Date Time

### TODO 3:

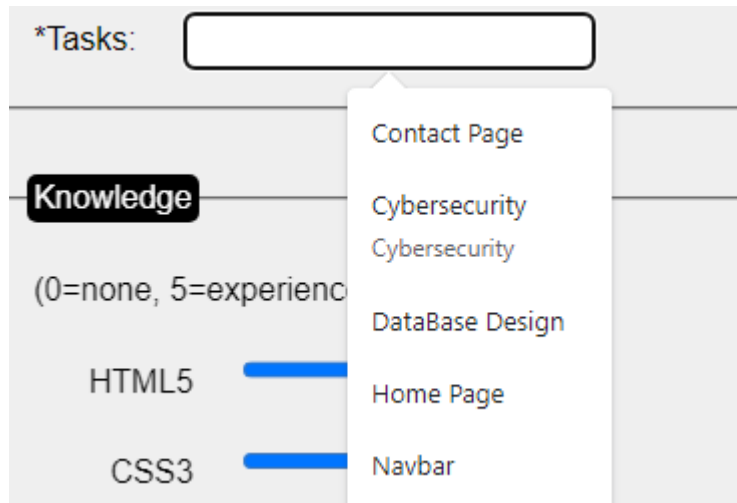

count characters left in "About Me" field (e.g. if you write a word of 5 characters  $500-5 = 495$  characters are left) Our first Event will be used here!! (input change...)

#### **TODO 4:**

dropdown menu for tasks

(Navbar, Database Design, Cybersecurity, Contact page, Home page)

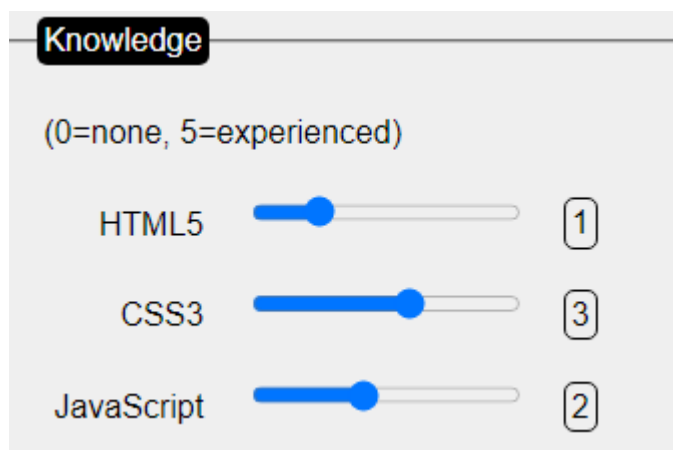

The screenshot shows a form with a section titled "\*Tasks:" followed by a dropdown menu. The dropdown menu is open, displaying a list of tasks: "Contact Page", "Cybersecurity", "Cybersecurity", "DataBase Design", "Home Page", and "Navbar". To the left of the dropdown, there is a section titled "Knowledge" with a subtitle "(0=none, 5=experienc)". Below this, there are two rows: "HTML5" and "CSS3", each followed by a blue progress bar.

#### **TODO 5:**

dropping line in the field "Knowledge" (HTML, CSS, JS)

(show the value of the range-input elements from 0 to 5)

The screenshot shows a form with a section titled "Knowledge" with a subtitle "(0=none, 5=experienced)". Below this, there are three rows: "HTML5", "CSS3", and "JavaScript". Each row has a blue progress bar and a value in a box: "1" for HTML5, "3" for CSS3, and "2" for JavaScript.

*Do not hesitate to question if something seems difficult to you!*
